old next month. She has been troubled nearly ever
after bet brith with a situ disease which I first diag
inited chicken pox but later found it to be some sort
of exema at any rate it resisted very stribburnity all
the different breatments. I promined one bottle of
fewill a byeelfie and gav. It to her in small doses three
times a day and in abort while had the assistation
to see that abe was cuttrely well I am so well pleased
with its effects to ber that a shall not only use it in
my practice but I shall administer it to my other
children and take it my self.
